

Meeting Report

Meeting Minutes

The team discussed the upcoming project updates and discussed the project features of the project. The project involves building a bridge between students and businesses. The meeting assistant will hold meetings between the business and the students where the students will update the business about what they have achieved in the product so far. The team will have a demonstration the Saturday at 5:00 p.m. if the team is available for the demonstration. The group also discussed the use of technology to convert ideas into a platform.
